JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

The genealogy of Changura's wives could likewise be traced through his mother's father. A woman ascertains who are her potential husbands by going back to her mother's "tabular" father, or her mother's "alternative" father, as well as her father's father, from which point the pedigree is the same in principle as that of last paragraph. It is manifest, therefore, that whichever one of the four specific women which a man is allowed to take as a wife, possesses practically the same relationship to him, although through different channels. The lineage from which a man obtains his wife is decided by the elders of the tribe.

PARRAMATTA, NEW SOUTH WALES.

February, 1905.

---

*Stated Meeting, April 7, 1905.*

President SMITH in the Chair.

A letter was read from Mr. James Douglas describing a so-called shower of toads which he saw in the Sulphur Spring Valley, Arizona, and confirming the observations of Dr. C. C. Abbott (see these PROCEEDINGS, Vol. XLIII, p. 163).

The decease was announced of the following members :

"The Mutual Affinities of the Species of the Genus *Cambarus*," by Dr. A. E. Ortmann, of Pittsburgh.

"The Faunal Relations of the Ryu-kyu (Loo Choo) Islands," by Dr. Henry A. Pilsbry, of Philadelphia.

*Evening Session.*

Prof. Russell H. Chittenden, of New Haven, read a paper on "Reason and Intelligence *vs.* Custom and Habit in the Nutrition of the Body."

---

*April 14,*

*Morning Session.*

Vice-President NEWCOMB in the Chair.

The following papers were read :

"The Secular Perturbations of the Earth," by Mr. Eric Doolittle, of Upper Darby, Pa.

"On the Problem of Four Bodies," by Prof. Edgar Odell Lovett, of Princeton.

"Radio-Activity in Solar Phenomena," by Prof. Monroe B. Snyder, of Philadelphia.

"Evidence Relating to Latitude Variations of Short Periods. From Observations at the Flower Observatory During the Year 1904," by Prof. C. L. Doolittle, of Philadelphia.

"Enquiry Into the Pressure and Rainfall Conditions of the Trades-Monsoon Area, by W. L. Dallas, of the Meteorological Office, India.

"On the Construction of Isobaric Charts for Upper Levels and Their Dynamic Importance in Dynamic Meteorology," by Dr. J. W. Sandström, of Stockholm.

"The Straight Line Concept," by Prof. P. A. Lambert, of Bethlehem, Pa.

*Executive Session.*

President SMITH in the Chair.

The pending nominations for membership were read and the Society proceeded to an election.

*Afternoon Session.*

President SMITH in the Chair.

The Tellers of Election reported that the following candidates had been elected to membership :

*Residents of the United States :*

Joseph S. Ames, Ph.D., Baltimore ;

Thomas Chrowder Chamberlin, Ph.D., LL.D., Chicago ;

William Gilson Farlow, Cambridge ;

Charles H. Frazier, M.D., Philadelphia ;

David Starr Jordan, Stanford University, Cal. ;

George Lyman Kittredge, LL.D., Cambridge ;

Robert G. Le Conte, M.D., Philadelphia ;

Eliakim Hastings Moore, Chicago ;

George T. Moore, Ph.D., Washington ;

Richard A. F. Penrose, Jr., Ph.D., Philadelphia ;

Francis P. Venable, Ph.D., LL.D., Chapel Hill, N. C.;  
J. Edward Whitfield, Philadelphia;  
Bailey Willis, E.M., C.E., Washington.

*Foreign Residents :*

Yves Delage, Paris;  
Otto Nordenskjöld, Stockholm;  
William Matthew Flinders-Petrie, D.C.L., LL.D., F.R.S.,  
London;  
Edward Sievers, Leipzig;  
Sir William Turner Thiselton-Dyer, LL.D., Ph.D., F.R.S.,  
Kew, England.

The following papers were read :

"On the Theory of the Double Suspension Pendulum," by  
Prof. Robert S. Woodward, of New York.

"The Relation between the Economic Depth of a Bridge  
Truss and the Depth Which Gives Greatest Stiffness," by Prof.  
Mansfield Merriman, of South Bethlehem, Pa.

"On the Dispersion, Absorption, Fluorescence and Mag-  
netic Rotation of Sodium Vapor," by Prof. Robert Williams  
Wood, of Baltimore.

"On a Possible Case of Scattering of the Ultra-Violet  
Light by Gas Molecules," by Prof. Robert Williams Wood, of  
Baltimore.

"The Use of the Falling Plate Oscillograph as a Phase  
Meter," Dr. William McClellan, of Philadelphia.

"On the Brains of Scymnus, Mitsukurina and Chlamydo-  
selachus, with Remarks Upon Selachian Brains from Stand-  
points Morphic, Ontogenic, Taxonomic, Phylogenic and Peda-  
gogic," by Prof. Burt G. Wilder, of Ithaca.
